Quincy, MA 02169-7471

**Scope**

This Committee shall have overall responsibility for documents that pertain to the criteria for the design and installation of automatic, open and foam-water sprinkler systems including the character and adequacy of water supplies, and the selection of sprinklers, piping, valves, and all materials and accessories. This Committee does not cover the installation of tanks and towers, nor the installation, maintenance, and use of central station, proprietary, auxiliary, and local signaling systems for watchmen, fire alarm, supervisory service, nor the design of fire department hose connections.

**Responsibility**

Standard for the Installation of Sprinkler Systems (NFPA 13)

National Fire Protection Association  
1 Batterymarch Park  
Quincy, MA 02169-7471

**Scope**

This Committee shall have the primary responsibility for documents relating to preventive maintenance of electrical, electronic, and communications systems and equipment used in industrial and commercial type applications with the view of: (1) reducing loss of life and property, and (2) improving reliability, performance, and efficiency in a cost-effective manner. The purpose is to provide generally applicable procedures for preventive maintenance that have broad application to the more common classes of industrial and commercial systems and equipment without duplicating or superseding instructions that manufacturers normally provide. This Committee shall report to Correlating Committee of the National Electrical Code.

**Responsibility**

Staff Liaison

---

**Christopher Coache**  
National Fire Protection Association  
1 Batterymarch Park  
Quincy, MA 02169-7471

**Scope**

This Committee shall have primary responsibility for documents on performance criteria for the selection and assembly of the components for emergency and standby power systems in buildings and facilities, including categories of power supplies, transfer equipment, controls, supervisory equipment, and all related electrical and mechanical auxiliary or accessory equipment needed to supply emergency or standby power to the utilization equipment. The Committee also shall be responsible for criteria on the maintenance and testing of the system. This Committee does not cover requirements for the application of emergency power systems, self-contained emergency lighting units, and electrical wiring, except that wiring that is an integral part of the system up to the load side of the transfer switch(es). This Committee shall report to Technical Correlating Committee of the National Electrical Code.

**Responsibility**

Standard for Emergency and Standby Power Systems (NFPA 110)  
Standard on Stored Electrical Energy Emergency and Standby Power Systems (NFPA 111)

Emergency Service Organization Risk Management

**Thomas McGowan**

National Fire Protection Association  
1 Batterymarch Park  
Quincy, MA 02169-7471

**Scope**

This Committee shall have primary responsibility for documents on protective clothing and protective equipment, except respiratory protective equipment, that provides hand, foot, torso, limb, and head protection for fire fighters and other emergency services responders during incidents that involve hazardous materials operations. These operations involve the activities of rescue; hazardous material confinement, containment, and mitigation; and property conservation where exposure to substances that present an unusual danger to responders are present or could occur due to toxicity, chemical reactivity, decomposition, corrosiveness, or similar reactions.

Additionally, this Committee shall have primary responsibility for documents on the selection, care, and maintenance of hazardous materials protective clothing and protective equipment by fire and emergency services organizations and personnel.

**Responsibility**

Standard on Liquid Splash-Protective Ensembles and Clothing for Hazardous Materials Emergencies (NFPA 1992)  
Standard on Protective Ensembles for First Responders to CBRN Terrorism Incidents (NFPA 1994)  
Standard on Vapor-Protective Ensembles for Hazardous Materials Emergencies and CBRN Terrorism Incidents (NFPA 1991)

**Scope**

This committee shall have primary responsibility for documents on protective ensembles, except respiratory protection, that provides head, limb, hand, foot, torso, and interface protection for fire fighters and other emergency services responders during incidents involving structural fire fighting operations or proximity fire fighting operations.

Structural fire fighting operations include the activities of rescue, fire suppression, and property conservation during incidents involving fires in buildings, enclosed structures, vehicles, marine vessels, or like properties.

Proximity fire fighting operations include the activities of rescue, fire suppression, and property conservation during incidents involving commercial and military aircraft fires, bulk flammable gas fires, bulk flammable and combustible liquids fires, combustible metal fires, exotic fuel fires, and other such fires that produce very high levels of radiant heat as well as convective and conductive heat.

Additionally, this committee shall have primary responsibility for documents on the selection, care, and maintenance of structural and proximity fire fighting protective ensembles by fire and emergency services organizations and personnel.

**Responsibility**

Standard on Protective Ensembles for Structural Fire Fighting and Proximity Fire Fighting (NFPA 1971)  
Standard on Selection, Care, and Maintenance of Protective Ensembles for Structural Fire Fighting and Proximity Fire Fighting (NFPA 1851)

**Scope**

This Committee shall have primary responsibility for documents on protective clothing and protective equipment, except respiratory protective equipment, that provides hand, foot, torso, limb and head protection, as well as interface protection for fire fighters or other emergency services responders during incidents involving wildland fire fighting operations. These operations include the activities of fire suppression and property conservation in forest, brush, grass, ground cover, and other such vegetation that is not within structures but that is involved in fire.

Additionally, this Committee shall have primary responsibility for documents on the selection, care, and maintenance of wildland fire fighting protective clothing and protective equipment by fire and emergency services organizations and personnel.

**Responsibility**

Standard on Protective Clothing and Equipment for Wildland Fire Fighting (NFPA 1977)  
Standard on Selection, Care, and Maintenance of Wildland Fire Fighting Protective Clothing and Equipment (NFPA 1877)

**Scope**

This Committee shall have primary responsibility for all fire service training techniques, operations, and procedures to develop maximum efficiency and proper utilization of available personnel. Such activities can include training guides for fire prevention, fire suppression, and other missions for which the fire service has responsibility.

**Responsibility**

Guide for Land-Based Fire Departments that Respond to Marine Vessel Fires (NFPA 1405)  
Recommended Practice for Fire Department Operations in Properties Protected by Sprinkler and Standpipe Systems (NFPA 13E)  
Recommended Practice for Fire Service Training Reports and Records (NFPA 1401)  
Standard for Training Fire Service Rapid Intervention Crews (NFPA 1407)  
Standard for a Fire and Emergency Service Vehicle Operations Training Program (NFPA 1451)  
Standard for Fire Service Respiratory Protection Training (NFPA 1404)  
Standard for Training Fire Service Personnel in the Operation, Care, Use, and Maintenance of Thermal Imagers (NFPA 1408)  
Standard on Live Fire Training Evolutions (NFPA 1403)  
Standard on Training for Emergency Scene Operations (NFPA 1410)

National Fire Protection Association  
1 Batterymarch Park  
Quincy, MA 02169-7471

**Scope**

This Committee shall have primary responsibility for documents on fire testing procedures, for reviewing existing fire test standards and recommending appropriate action to NFPA, for recommending the application of and advising on the interpretation of acceptable test standards for fire problems of concern to NFPA technical committees and members, and for acting in a liaison capacity between NFPA and the committees of other organizations writing fire test standards. This Committee does not cover fire tests that are used to evaluate extinguishing agents, devices, or systems.

**Responsibility**

(NFPA 285)  
Recommended Practice for a Field Flame Test for Textiles and Films (NFPA 705)  
Recommended Practice for Determining Smoke Generation of Solid Materials (NFPA 258)  
Standard Fire Test Method for Evaluation of Fire Propagation Characteristics of Exterior Non-Load-Bearing Wall Assemblies Containing Combustible Components  
Standard for Fire Testing of Passive Protection Materials for Use on LP-Gas Containers (NFPA 290)  
Standard Method of Fire Test for Determining the Heat Release Rate of Roofing Assemblies with Combustible Above-Deck Roofing Components (NFPA 276)  
Standard Method of Fire Test for Individual Fuel Packages (NFPA 289)  
Standard Method of Fire Tests for the Evaluation of Thermal Barriers (NFPA 275)  
Standard Method of Test for Critical Radiant Flux of Floor Covering Systems Using a Radiant Heat Energy Source (NFPA 253)  
Standard Method of Test for Determining Resistance of Mock-Up Upholstered Furniture Material Assemblies to Ignition by Smoldering Cigarettes (NFPA 261)  
Standard Method of Test for Flame Travel and Smoke of Wires and Cables for Use in Air-Handling Spaces (NFPA 262)  
Standard Methods of Fire Tests for Evaluating Contribution of Wall and Ceiling Interior Finish to Room Fire Growth (NFPA 286)  
Standard Methods of Fire Tests for Evaluating Room Fire Growth Contribution of Textile or Expanded Vinyl Wall Coverings on Full Height Panels and Walls (NFPA 265)  
Standard Methods of Fire Tests for Flame Propagation of Textiles and Films (NFPA 701)  
Standard Methods of Fire Tests of Door Assemblies (NFPA 252)  
Standard Methods of Fire Tests of Horizontal Fire Door Assemblies Installed in Horizontal Fire Resistance-Rated Assemblies (NFPA 288)  
Standard Methods of Tests and Classification System for Cigarette Ignition Resistance of Components of Upholstered Furniture (NFPA 260)  
Standard Methods of Tests for Evaluating Fire and Ignition Resistance of Upholstered Furniture Using a Flaming Ignition Source (NFPA 277)  
Standard on Fire Test for Window and Glass Block Assemblies (NFPA 257)  
Standard Test Method for Determining Ignitability of Exterior Wall Assemblies Using a Radiant Heat Energy Source (NFPA 268)  
Standard Test Method for Developing Toxic Potency Data for Use in Fire Hazard Modeling (NFPA 269)  
Standard Test Method for Mattresses for Correctional Occupancies (NFPA 284)  
Standard Test Method for Measurement of Smoke Obscuration Using a Conical Radiant Source in a Single Closed Chamber (NFPA 270)  
Standard Test Method for Potential Heat of Building Materials (NFPA 259)  
Standard Test Method to Evaluate Fire Performance Characteristics of Pipe Insulation (NFPA 274)  
Standard Test Methods for Measurement of Flammability of Materials in Cleanrooms Using a Fire Propagation Apparatus (FPA) (NFPA 287)

**Scope**

This committee shall have primary responsibility for documents on the installation, maintenance, and use of carbon dioxide systems for fire protection.

This committee shall also have primary responsibility for documents on fixed fire extinguishing systems utilizing bromotrifluoromethane and other similar halogenated extinguishing agents, covering the installation, maintenance, and use of systems.

This committee shall also have primary responsibility for documents on alternative protection options to Halon 1301 and 1211 fire extinguishing systems. It shall not deal with design, installation, operation, testing, and maintenance of systems employing dry chemical, wet chemical, foam, aerosols, or water as the primary extinguishing media.

**Responsibility**

Standard on Carbon Dioxide Extinguishing Systems (NFPA 12)  
Standard on Clean Agent Fire Extinguishing Systems (NFPA 2001)  
Standard on Halon 1301 Fire Extinguishing Systems (NFPA 12A)

**Scope**

This committee shall have primary responsibility for documents covering the design, installation, operation, and maintenance of hybrid (water and inert gas) fire extinguishing systems that use a combination of atomized water and inert gas to extinguish fire. This scope does not include systems that use only inert gas or only atomized water (water mist) to achieve extinguishment. It also does not include twin fluid water mist systems that use inert gas to propel and/or atomize water mist droplets without generating a significant inert gas concentration in the protected space.

**Responsibility**

Standard on Hybrid (Water and Inert Gas) Fire Extinguishing Systems (NFPA 770)

**Scope**

This Committee shall have primary responsibility for documents on safety code for gas piping systems on consumers' premises and the installation of gas utilization equipment and accessories for use with fuel gases such as natural gas, manufactured gas, liquefied petroleum gas in the vapor phase, liquefied petroleum gas-air mixtures, or mixtures of these gases, including: a. The design, fabrication, installation, testing, operation, and maintenance of gas piping systems from the point of delivery to the connections with each gas utilization device. Piping systems covered by this Code are limited to a maximum operating pressure of 125 psig. For purposes of this Code, the point of delivery is defined as the outlet of the meter set assembly, or the outlet of the service regulator or service shutoff valve where no meter is provided. b. The installation of gas utilization equipment, related accessories, and their ventilation and venting systems.

**Responsibility**

National Fuel Gas Code (NFPA 54)
